

Razan Hayajneh

Software Engineer

(Laravel Developer)

Proven expertise in PHP Laravel Framework (three years of hands-on experience) with a strong foundation in creating web applications, integrating third-party APIs, and building RESTful APIs. Adept at working individually or collaboratively in a team, with a keen understanding of Agile and Scrum methodologies. Seeking opportunities to contribute technical skills and creativity to a software development team.

Education

Bachelor of Computer Engineering

Jordan University of Science and Technology

2016-2020

Irbid, Jordan

GPA: 3.80 (Excellent)

Skills

Creativity
Critical thinking
Communication
Teamwork & Collaboration
Problem solving
Database Management
CPanel
OOP
Clean Code
SOLID Principles
Design Patterns
MVC
Agile
RESTful API
Third-party API integration
E-Commerce Systems
CMS
DevOps
Git(Version Control)
PHP
Laravel
Vue.js
Livewire
HTML & CSS
JavaScript
Ajax
TailwindCSS & Bootstrap,
MySQL
SQL

Experience

Software Engineer (Laravel Full Stack Developer)

Fikra-it

Aug 2024 - present

- Designed and built RESTful APIs and API integration.
- Conducted project analysis.
- Used Git (Bitbucket, GitHub) for project collaboration.
- Deployed projects using CPanel (GoDaddy).
- Debugged issues and corrected errors.
- Worked within Agile methodology.
- Developed databases, applications, and servers.
- Discussed project progress, collected feedback, and addressed concerns
- Participated in project planning.

Laravel Full Stack Developer

It-appsFactory

Mar 2021 - Mar 2024

- Built RESTful APIs and API integration.
- Used Git (Bitbucket, GitHub, GitLab) for project collaboration.
- Deployed projects using CPanel (GoDaddy, Hostinger).
- Debugged issues and corrected errors.
- Worked within Agile methodology, familiar with Scrum.
- Developed databases, applications, and servers.
- Participated in client meetings and provided technical guidance.
- Discussed project progress, collected feedback, and addressed concerns
- Participated in client presentations and project planning.

Course

Fundamentals of Deep Learning

Vice President, NVIDIA

Sep 2024

The course covered deep learning fundamentals, including neural network training, optimization, and CNNs for computer vision. It explored data augmentation, model deployment, and the use of pre-trained models to accelerate AI development. The focus was on practical applications and real-world impact.
